Assumptions Used in Arriving at Fiscal Estimate

This bill regulates smoking in university buildings which house educational programs and in inpatient health care facilities. Smoking within these buildings would be allowed only in specified facilities or rooms, provided that signs are posted to designate these "smoking permitted" areas.

It is estimated that, on the average, university buildings would each require about three "smoking permitted" signs. The per sign cost is estimated at $4.50 in 1982-83 dollars. This estimate is based on the 1981 per sign cost, and increased to reflect inflation from 1981 to 1983. Thus, the expected one-time cost for the University System to implement the provisions of the bill would be about $8,000. There are no significant continuing annual costs associated with the bill's provisions.
